

**RESTORATION OF THE CROSSOVER BETWEEN THE LUL AND NATIONAL RAIL NETWORKS
SOUTH OF KENSINGTON OLYMPIA – 2014**

We are urging Network Rail and London Underground to re-install a track crossover to ensure the material from and to the Earls Court and West Kensington Opportunity Area redevelopment will be moved by tube and rail rather than by road.

Today I have asked both Sir Peter Hendy, Transport Commissioner for London and Mr David Ward, Managing Director of Network Rail for re-assurance that this re-connection will be made and I am now awaiting their answer.

Any support that you can give towards this would be most welcome.
